M	23~25	Gray	White
L	25~27	Brown	Cream
LL	26~28	Green	Green
3L	27~29	Purple	

※ Only Black for 3L

Key Benefits of Medical Compression Socks

Arch Support for Full-Body Balance

Firm support of the longitudinal foot arch stabilizes the three-point balance of the foot (big toe ball, little toe ball, and heel), naturally shifting body weight slightly inward.

This helps reduce stress on the knees, lower back, and cervical spine.

Supports Proper Posture and Walking

Improved foot balance promotes natural standing and walking posture, contributing to comfortable and healthy daily movement.

Graduated Compression for Calf Positioning

Unlike standard compression socks, pressure is reduced in the calf area for long-lasting comfort.

Graduated compression from the ankle lifts the calf muscles into proper alignment, helping prevent fatigue and injuries.

Toe-Free Design for Bunion Prevention

The toe area is free from pressure, allowing natural toe movement.

This encourages correct foot function and may help prevent bunions.

Far-Infrared Effect with Photon® Fibers

Despite the thin fabric, Photon® fibers reflect the body's own far-infrared heat as radiant energy.

This enhances blood vessel dilation, circulation, and lymphatic flow, helping maintain soft, resilient muscles while reducing swelling and muscle fatigue.

Beneficiile principale ale ciorapilor medicali compresivi

Suținere a boltei plantare pentru echilibru general

Suținerea fermă a boltei longitudinale stabilizează echilibrul în trei puncte al tălpii (metatars mare, metatars mic, călcâi), favorizând o distribuție ușoară a greutății spre interior.

Acest lucru poate reduce tensiunea asupra genunchilor, spatelui inferior și coloanei cervicale.

Suținerea posturii și a mersului corect

Îmbunătățirea echilibrului de la nivelul piciorului favorizează o postură naturală în picioare și un mers corect, sprijinind mișcările zilnice.

Compresie graduală pentru poziționarea corectă a gambei

Spre deosebire de ciorapii compresivi obișnuiți, presiunea este eliberată în zona gambei pentru un confort prelungit.

Compresia graduală de la gleznă ridică mușchiul gambei în poziția corectă, contribuind la prevenirea oboselii și a accidentărilor.

Design liber pentru degete – prevenirea monturilor

Zona degetelor nu exercită presiune, permițând mișcarea naturală a degetelor. Aceasta susține funcția naturală a piciorului și poate contribui la prevenirea monturilor (hallux valgus).

Efect de infraroșu îndepărtat prin fibre Photon®

Deși materialul este subțire, fibrele Photon® reflectă căldura proprie a corpului sub formă de energie radiantă.

Acest efect favorizează dilatarea vaselor de sânge, circulația sanguină și fluxul limfatic, ajutând la menținerea mușchilor supli și elastici, reducând edemele și oboseala musculară.

About Medical Compression Socks

If You Experience Itching or Discomfort

If you feel itching or discomfort after wearing the socks for a long time, we recommend starting with 2 to 3 hours per day.

This may occur due to a sudden improvement in blood circulation.

How to Wear

Please wear the socks with about one finger's width of space below the back of the knee joint.

Washing Instructions

- Do not tumble dry.
- Hand wash and air dry indoors are recommended to maintain quality and elasticity.

Despre ciorapii medicali compresivi

Dacă simțiți mâncărime sau disconfort

Dacă apare mâncărime sau un ușor disconfort după purtarea îndelungată a ciorapilor, vă recomandăm să începeți cu 2–3 ore pe zi.

Aceste reacții pot apărea din cauza îmbunătățirii bruște a circulației sanguine.

Instrucțiuni de purtare

Vă rugăm să purtați ciorapii lăsând un spațiu de aproximativ lățimea unui deget sub articulația din spatele genunchiului.

Instrucțiuni de spălare

- Nu folosiți uscătorul automat.
- Se recomandă spălarea manuală și uscarea în interior, pentru a păstra calitatea și elasticitatea materialului.

[Hormee Bubble Pack]

A foam pack of “hormesis powder” and “carbon dioxide beauty liquid”

Hormesis effect and carbon dioxide gas soften your skin
to remove dirt and dullness from pores.

How carbon dioxide gas works

■Help lighten skin tone

Aiming to lighten skin tone with mixture of carbon dioxide gas and hormesis.

■Remove dirt from pores

Aiming to reduce skin dullness by adsorbing dead skin cells or sebum and support remove dirt from pores.

■Help improve moisture retention

Softening and relaxing rough skin to help lotion and serum penetrate into the skin for enhanced moisture retention.

[536] Hormee Bubble Pack
¥8,000 (incl. tax ¥8,800)

•130g

[Pachet Hormee Bubble]

Formulat cu Pudră Hormesis – Pachet dens cu spumă carbonată dintr-o singură apăsare

Cu „Pudră Hormesis” și „Ser de frumusețe cu dioxid de carbon dizolvat”, se creează un pachet spumos.

Puterea combinată a hormesisului și a gazului carbonic înmoaie pielea întărită, elimină impuritățile din pori, îmbunătățește aspectul tern cauzat de murdărie și susține tonifierea pielii.

Acțiunea dioxidului de carbon

■Tonifierea pielii

Dioxidul de carbon din pachet, împreună cu componenta hormesis, vizează un ten mai luminos și mai uniform.

■Eliminarea impurităților din pori

Dioxidul de carbon absoarbe keratina veche și sebumul, sprijinind eliminarea impurităților din pori. Țintește reducerea rugozității și a aspectului tern cauzat de murdărie.

■Îmbunătățirea hidratării

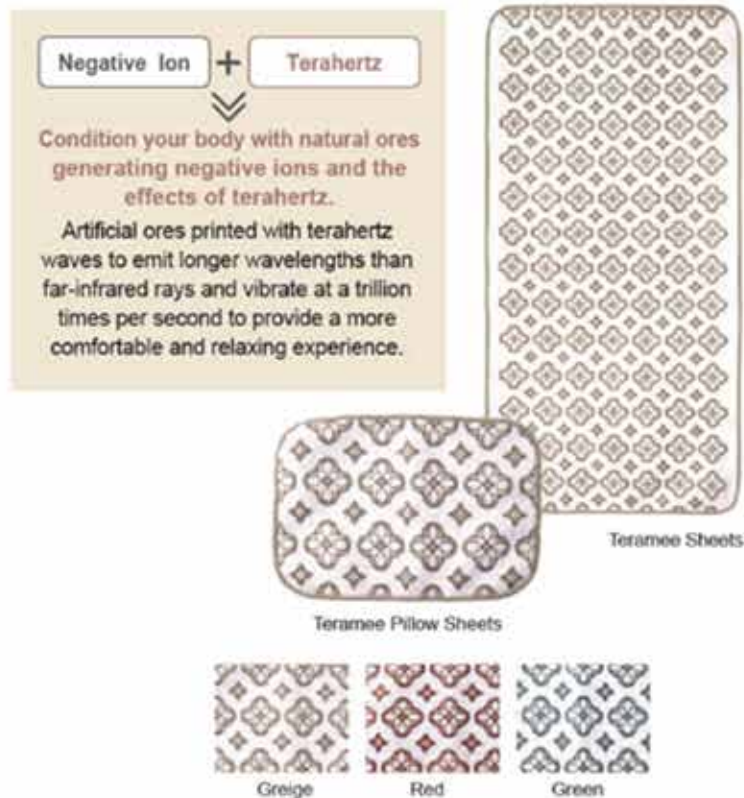

Dioxidul de carbon înmoaie pielea întărită, lăsând-o suplă. Pielea astfel înmuiată permite o penetrare mai bună a loțiunilor și serurilor, sprijinind hidratarea pe termen lung. Poate fi folosit și pentru îngrijirea corpului și a scalpului.

[536] Hormee Bubble Pack
8,000 yen (taxe incluse 8,800 yen)

Onsen Effect Sleep Mat

[Teramee Sheets and Pillow Sheets]

Use them on your bed, chair and sofa
to refresh your daily life.

[518] Teramee Sheets
(3 colors)
¥48,000 (incl. tax ¥52,800)

- SIZE: Single (100cm × 200cm)
- COLOR: Greige (GG) Red (RD) Green (GR)

[519] Teramee Pillow Sheets
(3 colors)
¥18,000 (incl. tax ¥19,800)

- SIZE: 43cm × 63cm
- COLOR: Greige (GG) Red (RD) Green (GR)

Saltea de Somn cu Efect de Onsen

[Cearșafuri Teramee / Perne Teramee]

Trăiește în fiecare zi cu vitalitate.

Cu o nouă abordare, îți îmbunătățești timpul de relaxare.

Nu doar în timpul somnului, ci pot fi folosite și pe scaune sau canapele.

Ioni negativi

+

Terahertz

Prin acțiunea de reglare, conduc la o stare echilibrată.

Razele infraroșii îndepărtate emise de pietre artificiale care vibrează constant cu unde terahertz, împreună cu mineralele naturale care generează ioni negativi, sunt combinate.

Acestea susțin un somn confortabil și relaxarea, ajută la reducerea oboselii și promovează sănătatea zilnică.

[518] Cearșaf Teramee
[Accesorii incluse] (disponibil în 3 culori)
48.000 yen (52.800 yen cu taxe incluse)

- MĂRIME: Single (100cm × 200cm)
- CULOARE: Gri-bej (GG), Roșu (RD), Verde (GR)

[519] Pernă Teramee (husa)
[Accesorii incluse] (disponibil în 3 culori)
18.000 yen (19.800 yen cu taxe incluse)

- MĂRIME: 43cm × 63cm
- CULOARE: Gri-bej (GG), Roșu (RD), Verde (GR)

Effects of Negative Ions (Antioxidant Particles)

- Boosts immunity
- Stabilizes mental state
- Eliminates waste
- Reduces fatigue
- Maintains weak alkalinity
- Enhances natural healing power

Efectele ionilor negativi (particule antioxidante)

- Întărește imunitatea
- Stabilizează starea mentală
- Elimină deșeurile
- Reduce obosela
- Menține alcalinitatea ușoară
- Îmbunătățește puterea de vindecare naturală

Effects of Positive Ions (Oxidizing Particles)

- Shoulder stiffness
- Cancer
- Aging
- Arteriosclerosis
- Acidity
- Weakened natural healing power

Efectele ionilor pozitivi (particule oxidante)

- Rigiditate la umeri
- Cancer
- Îmbătrânire
- Arterioscleroză
- Aciditate
- Scăderea capacității naturale de vindecare

[Diamond Hormee Half Blanket]

Perfect half-sized blanket to
add color to your daily life

Diamond Certificate of
authenticity attached

※Printed pattern
sample

Printed with a blend of ore powder and natural diamond powder
generating negative ions.

**[513] Diamond Hormee
Half Blanket (3 colors)**
¥22,000 (incl. tax ¥24,200)

- SIZE: 150×80cm
- COLOR: Navy (NE) Pink (PI)
Black (BK)

[Pătură Diamond Hormee Half]

Un articol care îți îmbogățește viața de zi cu zi.
O pătură specială de tip half, care colorează și
luminează fiecare zi.

Include certificat de autenticitate cu eșantion de model diamant.

Amestecată cu pulbere naturală de diamant, recunoscută pentru
conductivitatea termică excelentă, și imprimată cu pulbere minerală
ce emite ioni.

[513] Pătură Diamond Hormee Half (disponibilă în 3 culori)
22.000 yen (24.200 yen cu taxe incluse)

- MĂRIME: 150 × 80 cm
- CULOARE: Bleumarin (NE), Roz (PI), Negru (BK)

Effects of Negative Ions (Antioxidant Particles)

- Boosts immunity
- Stabilizes mental state
- Eliminates waste
- Reduces fatigue
- Maintains weak alkalinity

[Grangelina PREMIUM UV100]

Serum base with SPF50+ PA++++ function
Win clear skin

Sunscreen milk formulated with ingredients effective for anti-aging.

No burden on your skin.

Use as makeup base and remove with face wash.

[333] Grangelina PREMIUM UV100
¥6,000 (incl. tax ¥6,600)

•Net Weight: 58g

[Grangelina Premium UV100]

Cu funcție SPF50+ și PA++++,
o bază de machiaj tip ser.
Protecție solară cu efect de tonifiere,
pentru un aspect luminos, clar și transparent,
fără ternitate.*

*Efectele pot varia în funcție de machiaj.

Textură ușoară, îmbogățită cu ingrediente pentru îngrijirea
anti-îmbătrânire.

Se aplică uniform, cu o textură asemănătoare esenței lactate.

Un lapte & esență cu protecție solară, care nu încarcă pielea.

Poate fi folosit și ca bază de machiaj.

Se îndepărtează ușor cu demachiant facial.

[333] Grangelina Premium UV100
6.000 yen (6.600 yen cu taxe incluse)
Conținut: 58g

[Bible Gloss Factor Premium Herb Water Spray]

A multifunctional spray for face, scalp, and body.
The “Herb Water Spray” now contains
the new ingredient Deazaflavin.

Supports: • Tightening the skin
• Moisturizing
• Protecting

Ingredients:

- NMN (β -Nicotinamide Mononucleotide)
- White gold nano-coated human stem cell culture extract
- Marine ingredients
- Natural herb extracts

+

UV Damage Care Ingredients:

- Grapefruit extract
- Citrus unshiu peel extract

+

New Ingredient: Deazaflavin

Supports NAD-related metabolic activation in mitochondria.
Deazaflavin helps boost daily skin vitality, supporting a healthy and radiant appearance.

[453] Bible Gloss Factor Premium
Herb Water Spray (Cosmetic)
¥8,000 (tax included ¥8,800)
100ml

Features:

- Protection against UV damage
- Shields skin from pollen, dust, and other external irritants
- Can be used even over makeup
- Protects skin while refining texture, leaving it radiant and beautiful

[Bible Gloss Factor Premium Herb Water Spray]

Spray multifuncțional pentru față,
scalp și corp.
“Herb Water Spray” conține acum noul
ingredient Deazaflavin.

Susține: • Tonifierea pielii
• Hidratarea
• Protecția

Ingrediente:

- NMN (β -Nicotinamid Mononucleotid)
- Extract de cultură de celule stem umane acoperite cu nano-aur alb
- Ingrediente marine
- Extracte naturale de plante

+

Ingrediente pentru protecția împotriva daunelor UV:

- Extract din semințe de grapefruit
- Extract din coajă de Citrus unshiu

+

Noul ingredient: Deazaflavin

Sprrijină activarea metabolică legată de NAD în mitocondrii.
Deazaflavin ajută la creșterea vitalității zilnice a pielii, contribuind la un aspect sănătos și radiant.

[453] Bible Gloss Factor Premium
Herb Water Spray (Cosmetic)
8.000 yen (8.800 yen cu taxe incluse)
100ml

Caracteristici:

- Protecție împotriva daunelor cauzate de razele UV
- Apără pielea de polen, praf și alți factori iritanți externi
- Poate fi folosit chiar și peste machiaj
- Protejează pielea, în timp ce rafinează textura și o lasă strălucitoare și frumoasă

Teramee Rubber × Micro-Nano Bubbles

01 Micro-Nano Bubbles

Ultra-fine micro-nano bubbles penetrate deep into pores and remove impurities.

Bulele micro-nano ultra-fine pătrund adânc în pori și elimină impuritățile.

02 Far-Infrared Rays

The Teramee Rubber emits far-infrared rays semi-permanently.

Cauciucul Teramee emite raze infraroșii pe termen lung.

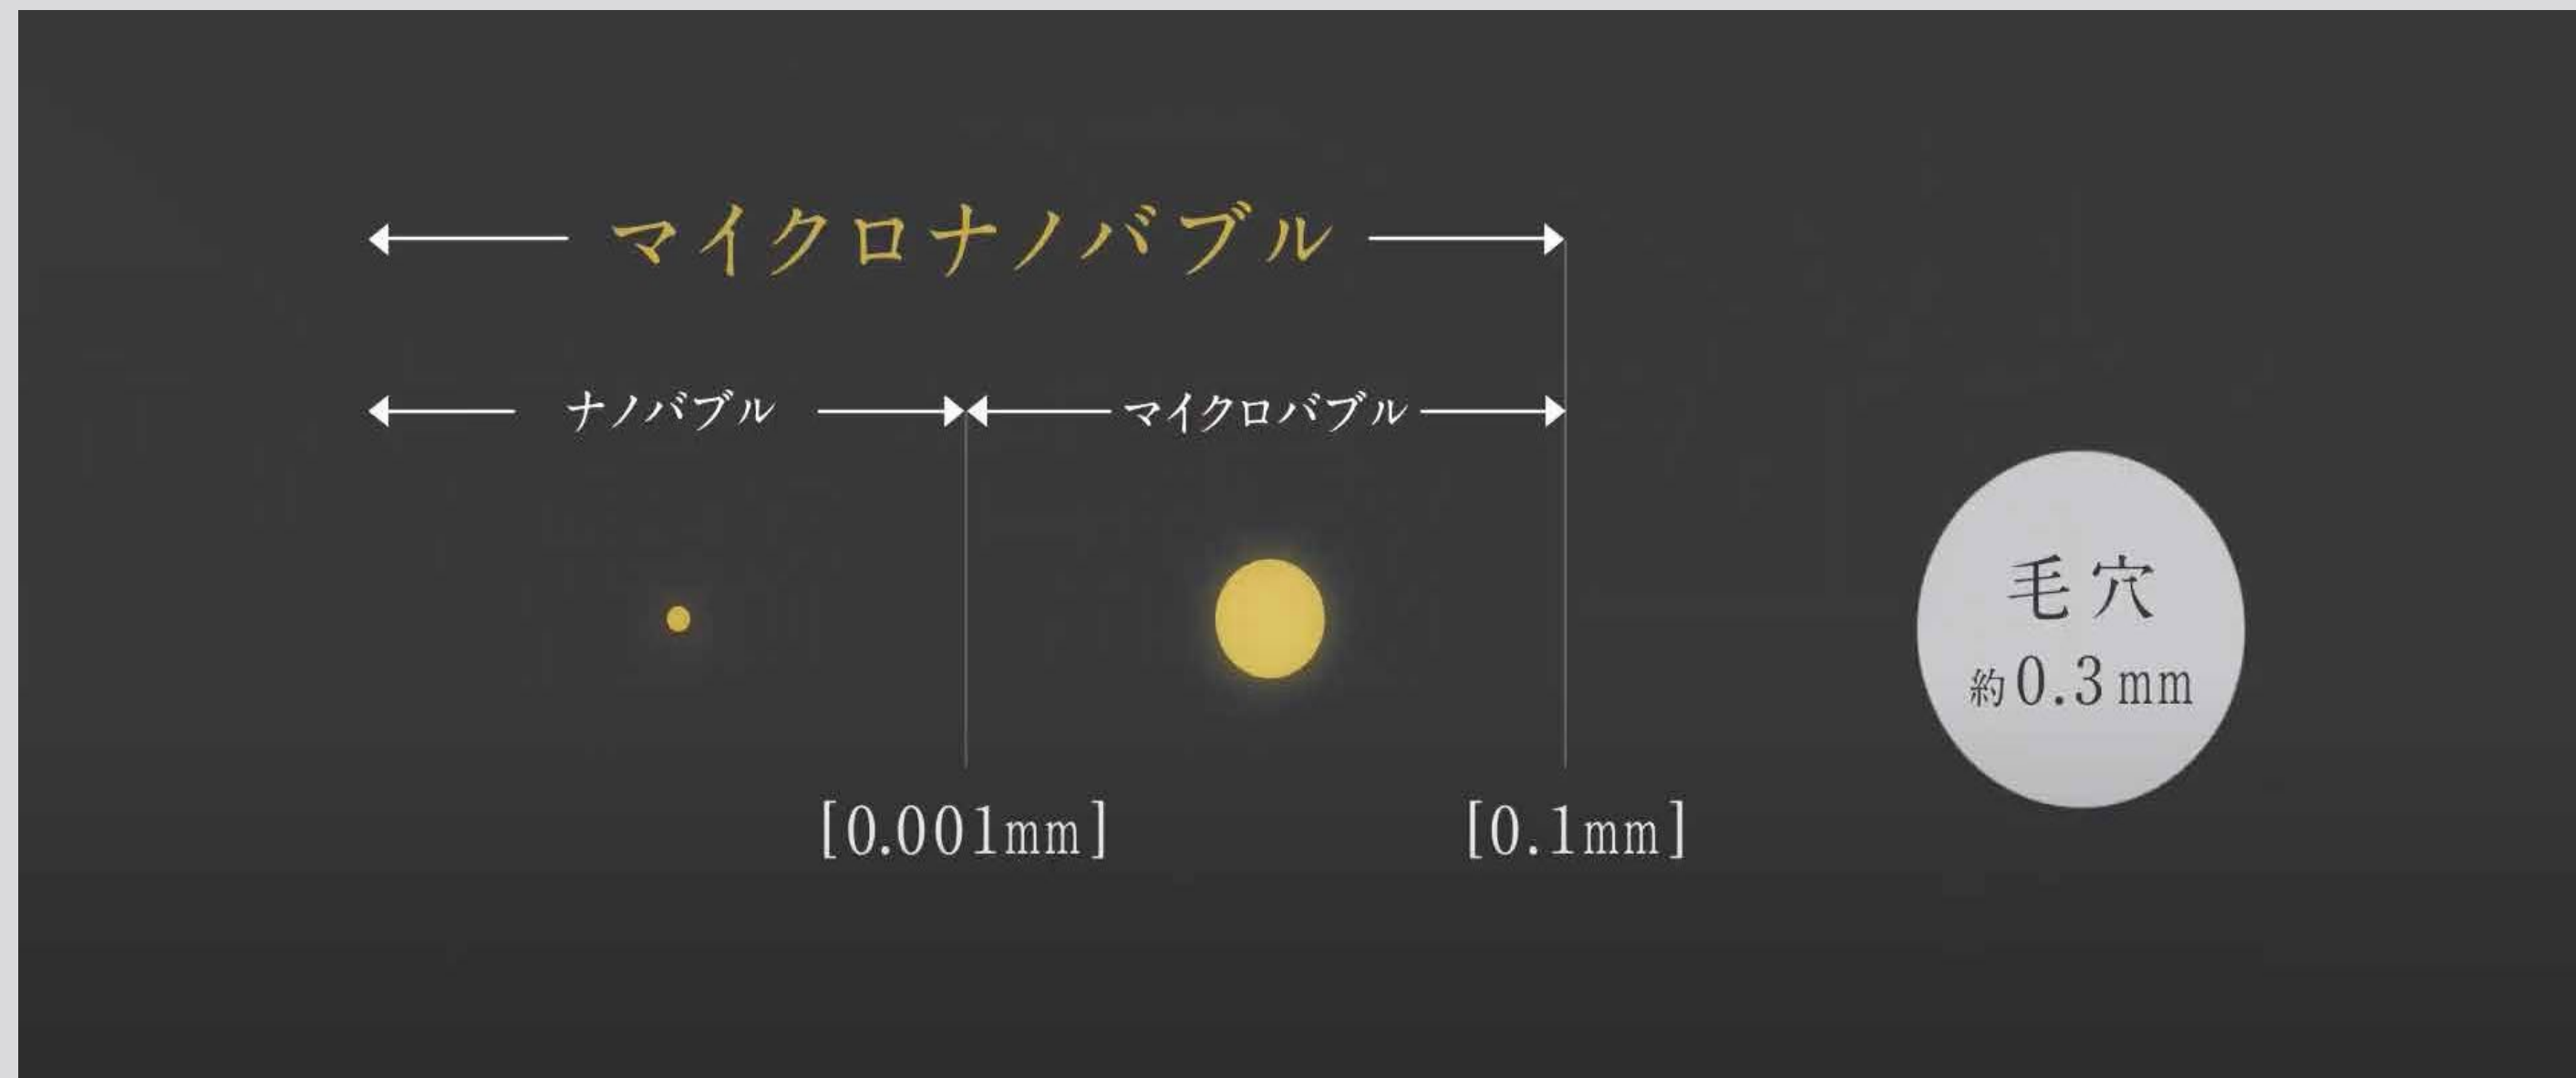

03 Negative Ions

Generates negative ions continuously, promoting relaxation.

Generează ioni negativi în mod constant, oferind efect de relaxare.

01 マイクロナノバブル

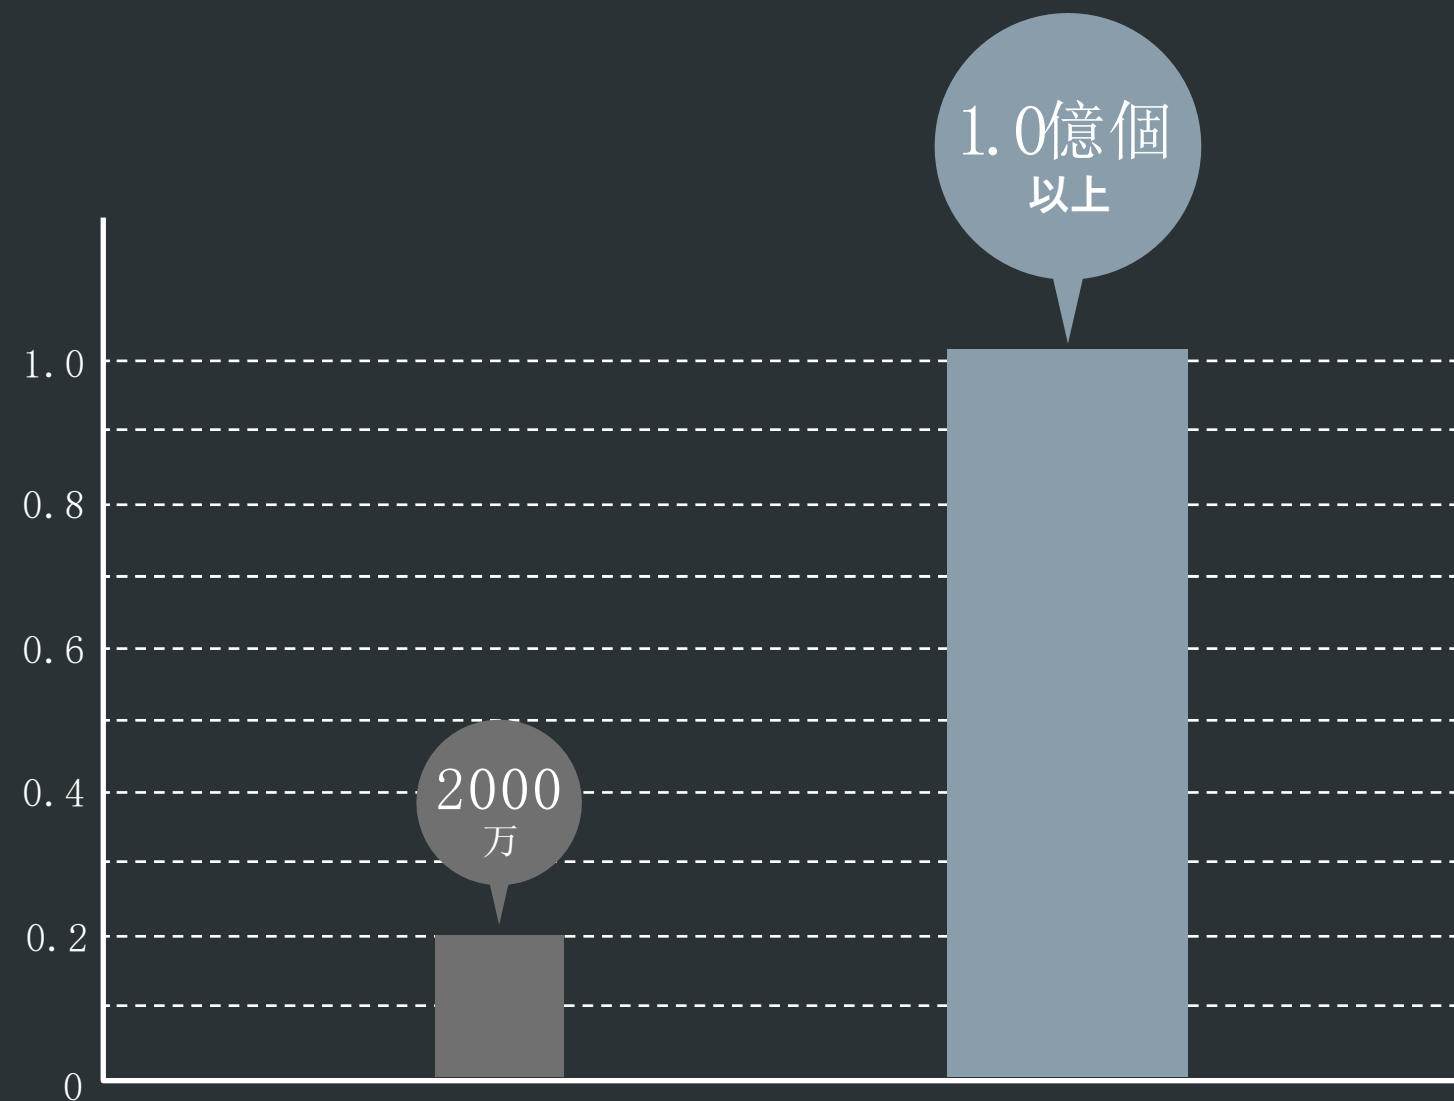

Micro-nano bubbles are a general term for bubbles smaller than 0.1 mm in diameter that are generated using a technology called cavitation, which further reduces the size of the air contained in water.

01 マイクロナノバブル

THE BODY STYLING generates over 100 million micro-nano bubbles per cc. The generation rate is 96.12% with shower water flow, which is about 1.5 times that of a normal shower.

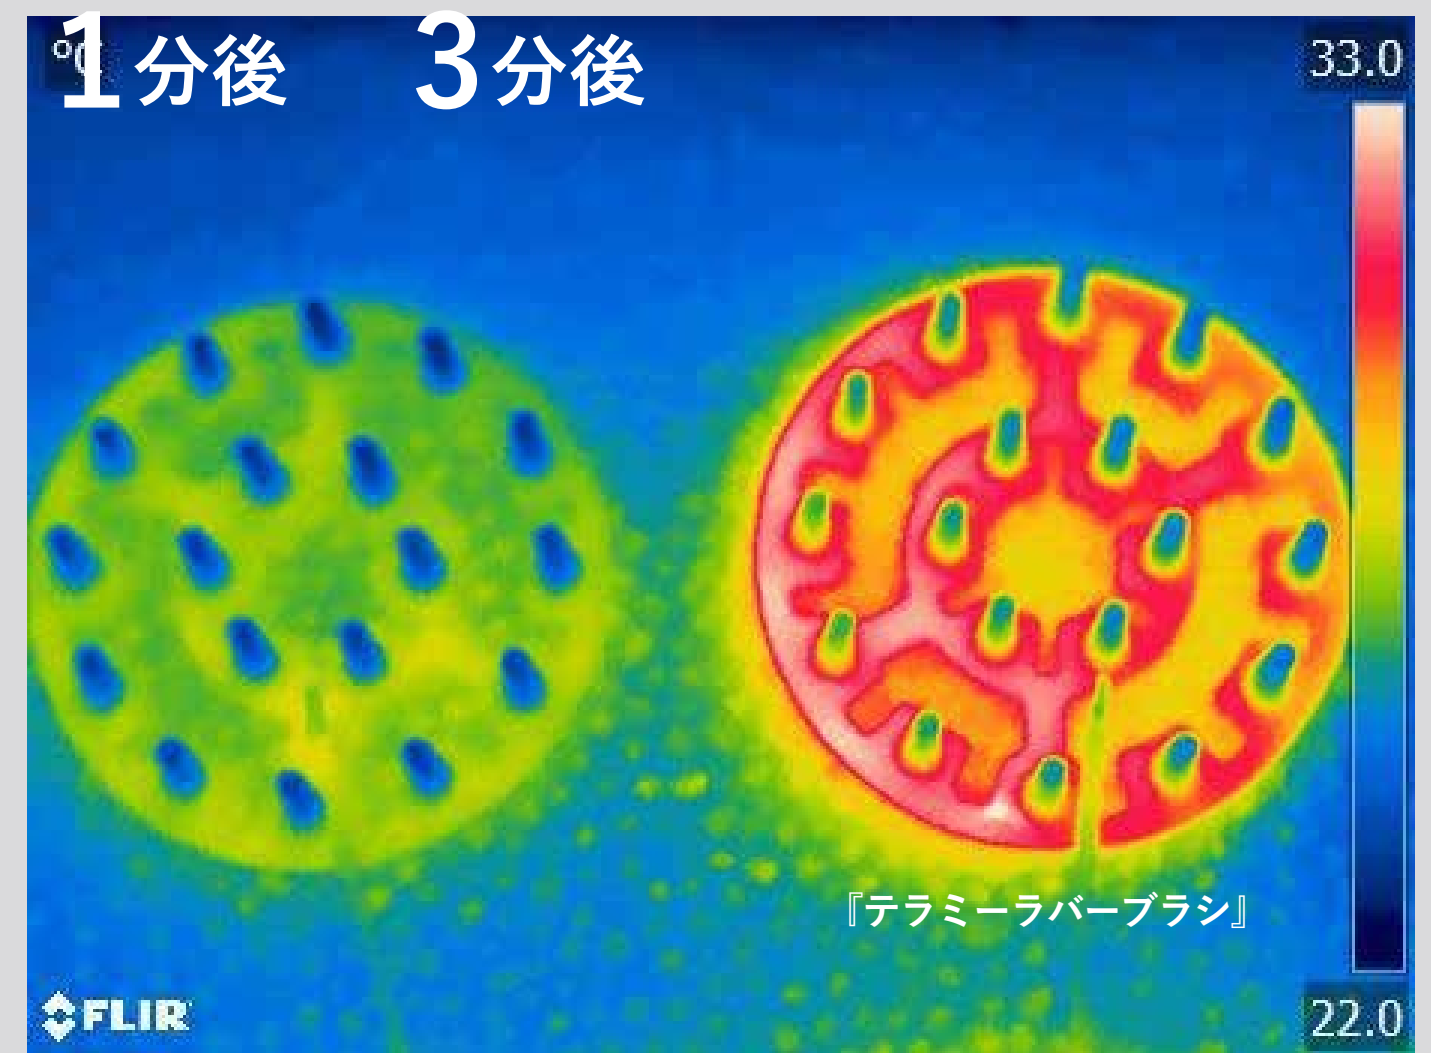

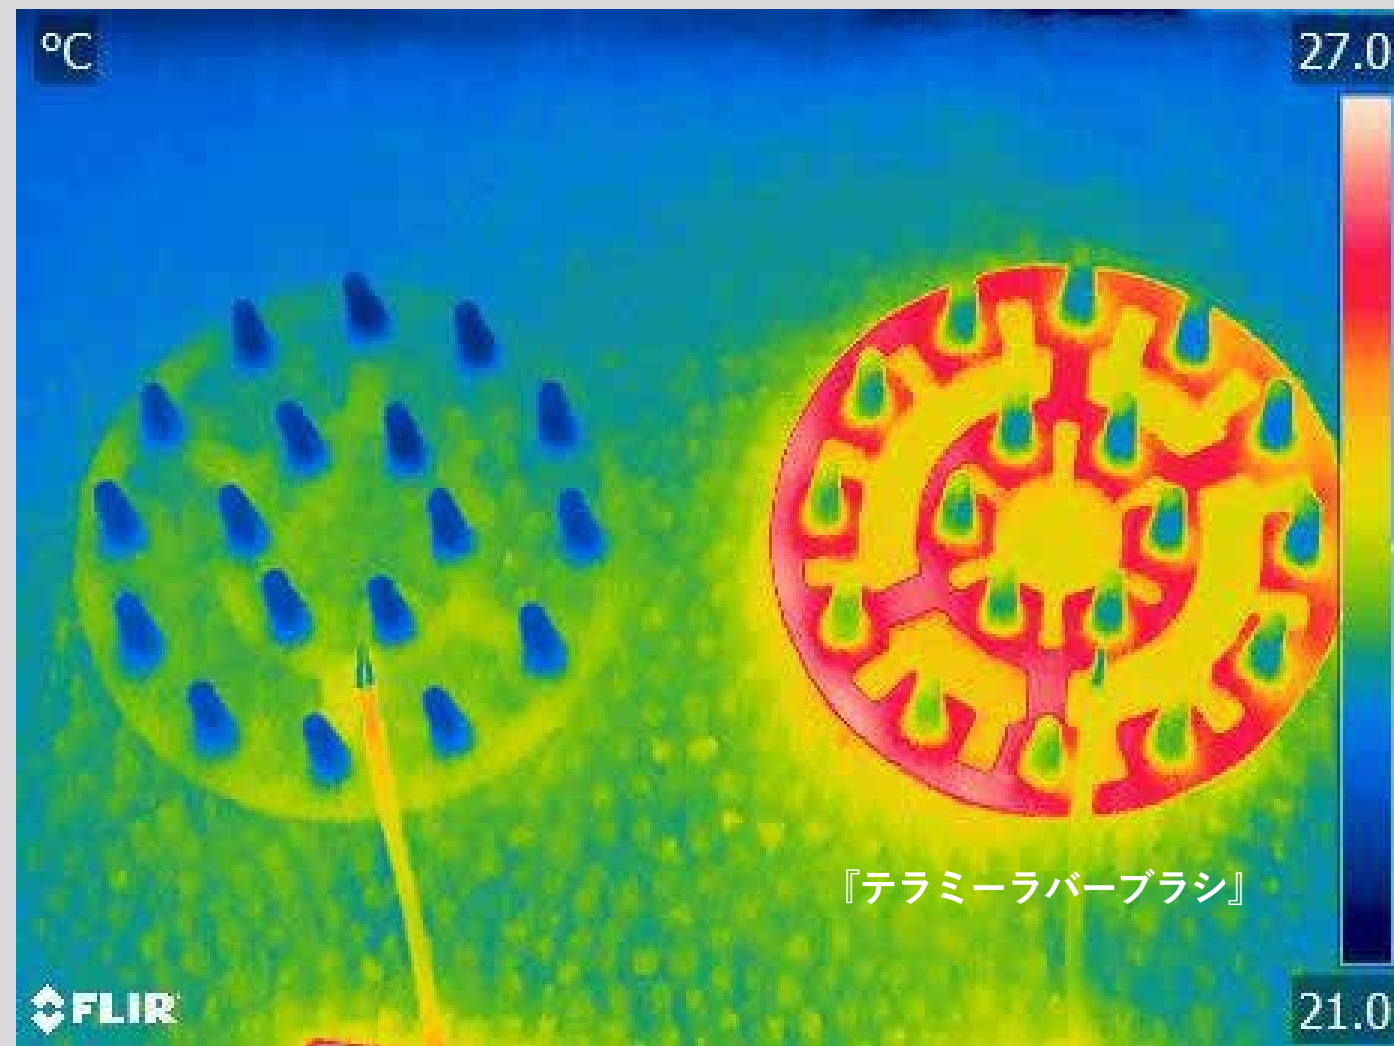

マイクロナノバブル 発生量比較

株式会社水生活製作所調べ

02 遠赤外線

As a result of a comparative experiment between the "Terramie Rubber Brush" and a "normal silicone brush," it was confirmed that the brush emits far infrared rays. The infrared radiant promotes sebum production.

対象品と比較品を並べ、50 cm上からレフランプを照射した。
照射1分後、3分後をサーモカメラで撮影し、同時に熱電対で温度測定を行った。

03 マイナスイオン

マイナスイオン

マイナスイオンとは、空気中に存在する負の電荷を持った微小な粒子で、自然界や特定の環境で生成されます。マイナスイオンは、プラスの電気を帯びたプラスイオンと対をなしており、お互いに結びついてさまざまな物質を作っています。

マイナスイオンカウンタEB-15で計測すると
2284個/cm³のマイナスイオンが発生していることが確認できます。

(測定する箇所・環境により多少誤差があります。)

03 マイナスイオン / Negative Ions / Ioni Negativi

✓ マイナスイオンとは

- 空気中の負の電荷を持つ微粒子で、自然環境や特定の条件下で生成されます。
- Negative ions are negatively charged particles in the air, generated naturally or in specific environments.
- Ioni negativi sunt particule încărcate negativ din aer, generate natural sau în condiții speciale.

✓ イオンの働き / Ion Interaction / Interacțiunea Ionilor

- ★ マイナスイオンはプラスイオンと結びつき、様々な物質を形成します。
- ★ They bind with positive ions to form various substances.
- ★ Ei se leagă de ionii pozitivi pentru a forma diverse substanțe.

✓ 測定結果 / Measurement Result / Rezultat măsurare

【Features and Benefits of the Hormesis Shower Head】

✔ Turn your bathtub into a “Hormesis Hot Spring”

Turn the bathtub into a hormesis hot spring and experience hot spring effects at home every day. Significantly reduce both time and cost.

✔ Fill the entire bathroom with negative ions

The steam filling the bathroom is enriched with negative ions, which are naturally taken into the alveoli through breathing. This makes blood throughout the body balanced and improves circulation and other functions.
(Since chlorine gas has a history of being used as a weapon, inhaling it is dangerous. Bleach = chlorine also dissolves the skin.)

✔ Cleansing of skin and scalp pores, and odor prevention

The human body has about 2 to 5 million pores in total, about 200,000 just on the face, and about 100,000 on the scalp. It is impossible to consciously wash them one by one in daily life, but the pressure of the shower removes the dirt and keeps skin and scalp clean.
Dirt in skin and scalp pores becomes the source of bacterial growth, body odor and aging odor.
For areas where you want to slim down such as the waist, apply the shower for a longer time, and lightly massage with the protrusions containing Tera stones for an expected slimming effect.

✔ Strong water pressure, daily whole-body massage

The strong pressure of the shower stimulates the skin and scalp every day.
It promotes blood circulation, and soft massage of the brain through scalp stimulation leads to rejuvenation and prevention of aging.

✔ Oral cleansing also possible during showering, for cavity prevention

Oral cleansing can also be done during showering, helping to prevent cavities.
Since the water pressure is far stronger than machines for oral rinsing with water, the cleansing effect is outstanding.

✔ Deep sleep by warming the body before bed

By warming the body from the core with a hormesis shower before going to bed, the parasympathetic nervous system becomes dominant, and you can sleep deeply.
The depth of sleep is proportional to cell repair and fatigue recovery.

✔ Portable size, usable also on business trips or travel

Compact size makes it possible to use even on business trips or at travel destinations.

【Caracteristici și Beneficii ale Dușului cu HORMESIS】

✔ Transformă cada într-un „Izvor Termal Hormetic”

Transformă cada într-un izvor termal hormetic și poți experimenta efectele apelor termale acasă în fiecare zi. Reducere semnificativă a timpului și costurilor.

✔ Umple întreaga baie cu ioni negativi

Aburul din baie se umple cu ioni negativi ai hormesisului și ai ionilor negativi, care sunt absorbiți în mod natural în alveole prin respirație. Sângele întregului corp devine echilibrat prin ioni negativi, îmbunătățind circulația și alte funcții.
(Gazul de clor a fost folosit în istorie ca armă, așa că inhalarea lui este periculoasă. Hipocloritul = clorul dizolvă și pielea.)

✔ Curățarea porilor pielii și scalpului, prevenirea mirosului

Corpul uman are aproximativ 2–5 milioane de pori, aproximativ 200.000 doar pe față și aproximativ 100.000 pe scalp. Este imposibil să îi speli conștient pe fiecare în viața de zi cu zi, dar presiunea dușului îndepărtează murdăria și menține pielea și scalpul curate.

Murdăria din porii pielii și scalpului devine sursă de proliferare bacteriană, miros corporal și miros de îmbătrânire. Pentru zonele unde dorești reducerea circumferinței, cum ar fi talia, aplică dușul mai mult timp și masează ușor cu proeminențele care conțin pietre Tera pentru un efect de slăbire așteptat.

✔ Presiune puternică a apei, masaj zilnic al întregului corp

Presiunea puternică a dușului stimulează pielea și scalpul zilnic. Îmbunătățește circulația sângelui, iar masajul delicat al creierului prin stimularea scalpului duce la întinerire și prevenirea îmbătrânirii.

✔ Clătirea cavității bucale posibilă și în timpul dușului, pentru prevenirea cariilor

Clătirea cavității bucale poate fi făcută și în timpul dușului, ajutând la prevenirea cariilor. Deoarece presiunea apei este mult mai puternică decât a aparatelor de clătire orală cu apă, efectul de curățare este excepțional.

✔ Somn profund prin încălzirea corpului înainte de culcare

Încălzirea corpului din interior cu un duș hormetic înainte de culcare face ca sistemul nervos parasimpatic să devină dominant, și poți dormi adânc. Adâncimea somnului este proporțională cu repararea celulară și recuperarea din oboseală.

✔ Dimensiune portabilă, utilizabil și în călătorii sau deplasări

Dimensiunea compactă îl face posibil de utilizat chiar și în călătorii de afaceri sau vacanțe.

Capture, Grasp, and Move Muscle

Main Premise of Development!

- ① **Results for professional use! ...Regardless of generation**
Face line, chin side, face width, eye height, laugh line wrinkles!
- ② **User friendly! Simple operation by switching of attachments and multiple functions.**
- ③ **Made in Japan with waterproof function (IPX4: Do not submerge in water)**

What is required for ①?

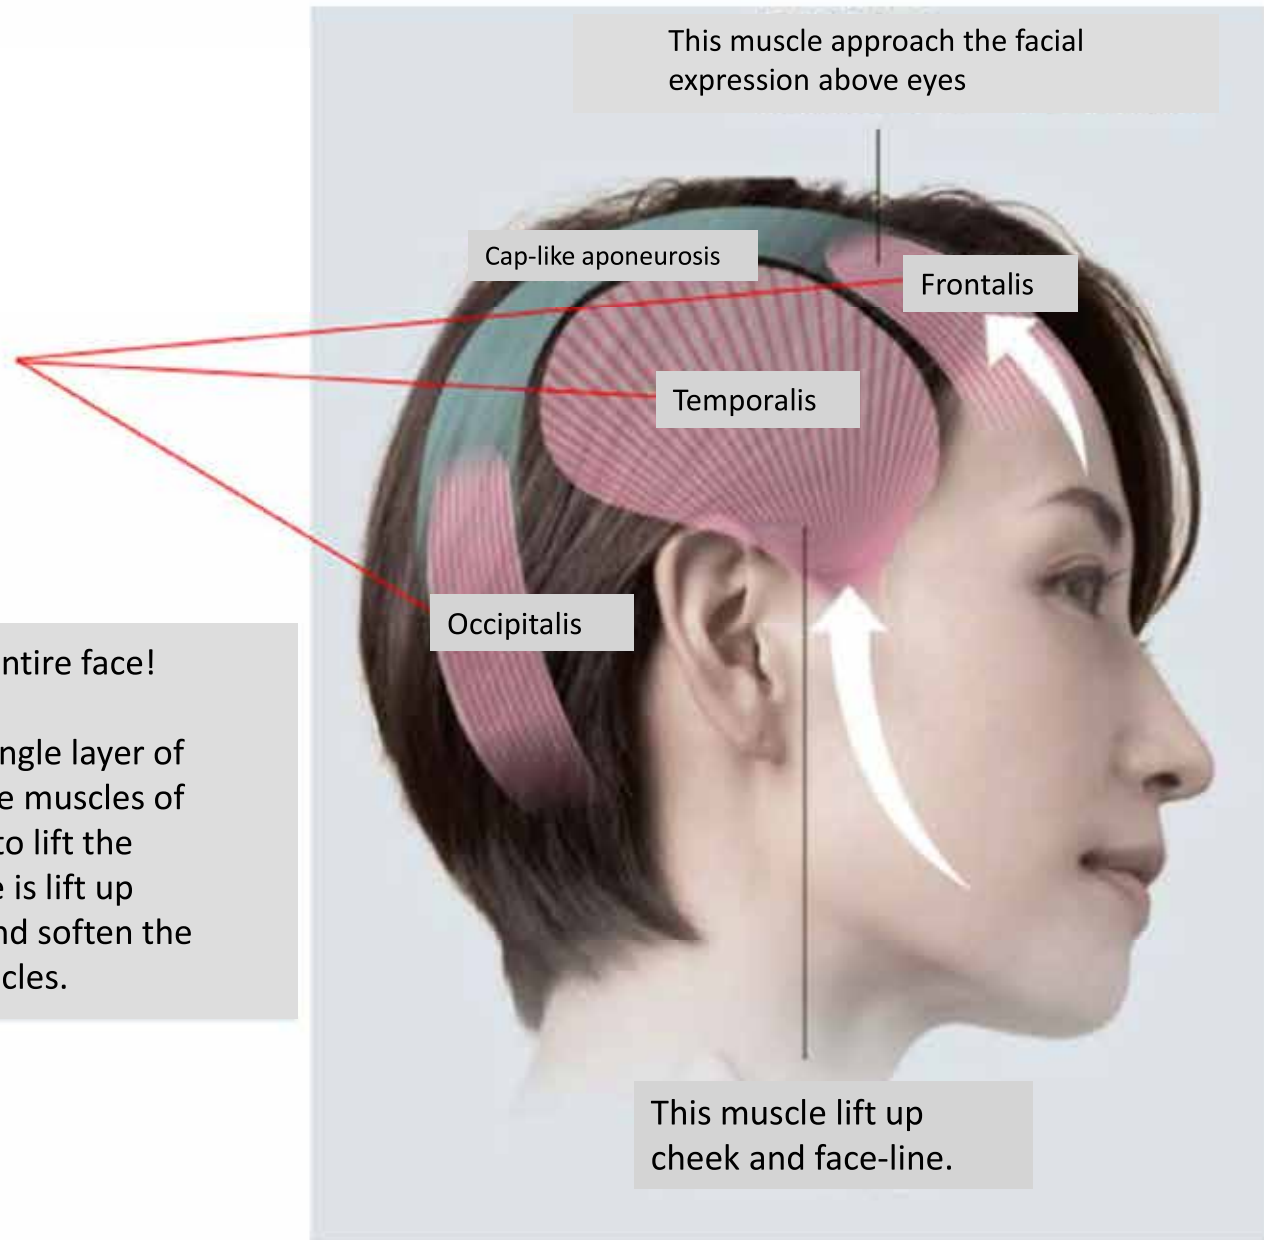

There are over 40 muscles in the face and head, on both the left and right sides. These muscles are not supported by bones like the muscles in arms and legs. When muscle strength weakens, these muscles succumb to gravity and begin to sag.

Approach these 3 muscles

The scalp is key element to lift up your entire face!

The scalp and face are connected by a single layer of skin. Sagging of the face occurs when the muscles of the scalp become stiff and the strength to lift the facial muscles decreases. The entire face is lift up when muscles under the scalp stretch and soften the frontalis, temporalis, and occipitalis muscles.

When body electrical treatment started?

Low-frequency therapy devices have long history dating back to Greece BC (about 2500 years ago). At that time, the electricity emitted by the **fish ray** was used to treat gout.

In Japan, **Gennai Hiraga**, a leading inventor of the Edo period, developed the famous device called as "Erekitel".

This device generates static electricity, and was first approved medical device in Japan. He said of Erekiteru, "It's a device that takes fire from the painful areas of the sick". Soon it became popular in Edo as it was said to relieve pain from the affected areas when electrocuted.

In the 1700s, **Benjamin Franklin**, who is known for proving that lightning is an electrical phenomenon by flying kites, discovered that "electricity can be used for medical treatment." He is World genius!

In 1928, **Toshiyuki Hara**, a medical doctor, developed Healthtron, the world's first electric potential treatment device. Healthtron successfully obtained manufacturing approval from the Ministry of Health, Labor and Welfare in 1963.

Lack of exercise above the neck! That's why pulse exercise is so effective!

Human nerves and muscles **are likely to respond** to low pulsed currents.

When a current is applied, the muscles contract, and when the current stops, the muscles relax and flex. **Movements such as stretching and shrinking occur.**

During this relaxation, expansion and contraction movement, a phenomenon occurs in which **blood containing waste products is pumped out.**

By repeating this, blood circulation will be promoted.

Additionally, when a low-frequency current is applied to a painful area, it works on the pain transmitting function and suppress the transmission of pain to the brain.

TSP

Auto-program

5 minutes

Low Frequency Wave
Large resistance at skin
Release the muscles
near the skin

Deep Penetration

Based on carbonic acid, It contains horse placenta processed under ultra-high pressure and dark nil, which is effective against gray hair. And it is made up of active ingredients that have a proven track record for thinning hair.

超高压抽出

HPP (High Pressure Processing)

Ultra-high pressure
Bird's nest extract
Sugar chain: sialic acid
Perfectly compatible with facial
beauty devices and slips well!

Wrinkle Mode

Approach around the eyes
and more delicate areas
5 minutes

Difference between TSP mode and Wrinkle mode

TSP mode: Mainly muscle exercise (5 minutes)

Wrinkle mode: Mainly repair and recovery using microcurrent (5 minutes)

Compared to TSP mode, Wrinkle mode uses low/medium EMS for a shorter exercise time and microcurrent for a longer time.

Main Feature!

More than 2,700 negative ions are emitted from each probe for FACE and HEAD!

Close contact and adsorption structure of Teramee Rubber (for face) creates **vacuum** at the contact surface with the skin, giving you the suction feeling that only Teramee Rubber can provide!

Precautions before use Part 1

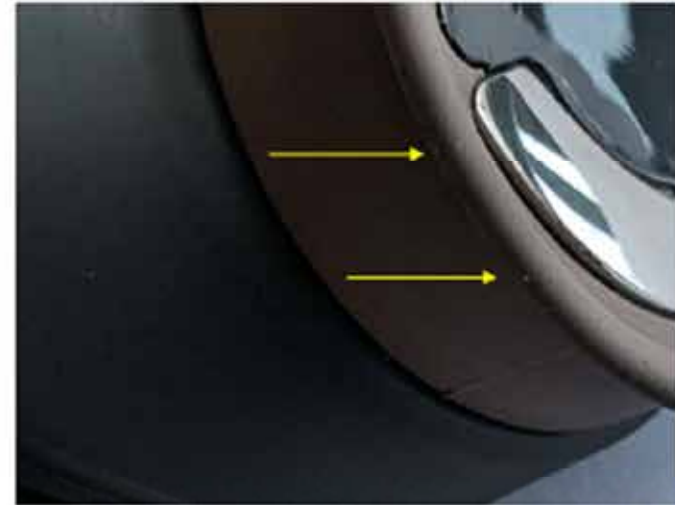

Please be sure to read the instruction manual included with the product.

In particular, after-sales service may not be covered by the warranty even if it is less than one year after purchase.

(Refer to paragraph 5 in page 24 of instruction manual)

For example, replacement of Teramee rubber due to wear and tear will be charged even if it is less than one year after purchase.

*Teramee rubber is a **very fragile component** because it is kneaded with two types of ores. Please use it gently and carefully.

About rubber quality

There are white and black spots on the head and face rubber, but since natural ores are mixed in, the colors of each ore stand out.

There is no problem with the product itself.
You can still use it.

Notice

Regarding use on the nape of the neck

This year (2024), accidents have been reported due to the use of neck parts with products from other manufacturers. For the safety of users, please follow the below precautions.

Advice on using facial beauty devices safely

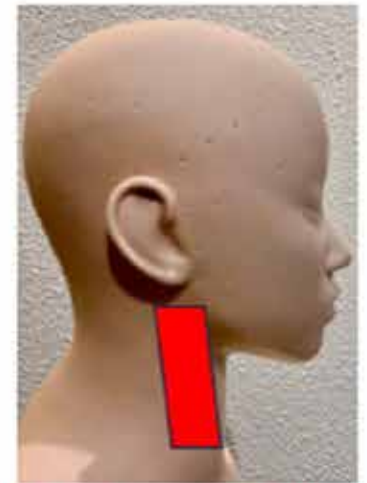

(1) Precautions when using the facial beauty device - **Avoid pressing or wearing the facial beauty device near your neck.** - Reflex syncope is more likely to occur in a standing position, so please be careful of surrounding furniture, as there is a risk of falling and causing secondary damage such as head injury. - Please refrain from using it when you are sleep deprived or after drinking alcohol. - Since the structure and method of use differ depending on the type of facial beauty device, please check the instruction manual and warning signs before use.

(2) If you feel unwell while using the EMS facial device

A. Symptoms that are often felt before fainting - A feeling of constriction in the head - A state where things appear double - Nausea or vomiting - A feeling of losing consciousness, etc.

B. If you notice signs of fainting, - Crouch down on the spot - Lie down

Reference: April 11, 2020 Consumer Safety Investigation Committee

FAQ

(1) Is it safe to use if I have hyaluronic acid injections or thread lifts?

Please consult your doctor.

(2) Can the charger be used overseas?

You can use it. (With some exceptions) Instructions for using a smartphone.

(3) Is there no effect unless I feel electrical stimulation?

The way stimulation is felt varies from person to person. Rest assured that if it is working properly, muscle movement is being performed. If you experience strong irritation, please do not force yourself to continue using it.

Please adjust the output level and use it at a comfortable level.

FAQ (Continued)

(4) Is there a warranty if the rubber breaks or tears occur due to friction?

The rubber (FACE/HEAD) is a consumable component. It is not covered by the warranty and will be replaced for a fee. If you wish to repair the rubber, please enclose the warranty card and mail it to the Grant Ewans Product Department. Please refer to paragraph 5 “After-sales Service” in page 24 of the instruction manual. Even within the warranty period, the rubber is a consumable component and is not covered by the warranty. Repairs will be charged. In the event of aging, wear due to use, rust, mold, deterioration, discoloration, or other similar reasons, refer to (Warranty)⑦.

(5) How long is the lifespan of the facial beauty device?

Since it depends on the frequency and method of use, lifespan of device is not defined. The battery (lithium ion battery) can be charged and discharged 300 times under normal circumstances. If the battery is used more than 300 times, the operating time could be shorter like smartphone. New battery is new can be used for a long time after being charged, but as the battery is repeatedly charged, the same symptoms can be seen. If you notice that the operating time becomes shorter even after charging, we recommend replacing the battery. Once again, Teramee rubber is a very fragile consumables. We have confirmed the durability of the product after using it 3 to 4 times a week for about a year, but the degree of wear and tear varies depending on the frequency and method of use.

Thank you for attention

*We will always
be with you.*

Our lingerie makes your heart and body flutter

We strive to create body wear thinking of wearers with thorough attention to pattern, sewing, and even lace for beautiful and attractive looking. Grant E' Ones offers lingerie to make your heart flutter with a different style.

Not a simple shapewear

Collaboration of AP Fiber and KODENSHI®

AP Fiber

Aging care with shapewear^{※1}

Tourmaline is utilized in various industries, exhibiting multiple functions such as negative ion, far-infrared ray, and deodorization. AP fiber, embedded with tourmaline through a special formula and mechanism, can constantly generate negative ion in a static state without consuming electricity. Negative ions revive the ability of original air or space to absorb inappropriate odors in our living environment, and create a state of relaxation. They also keep air warm and are used in mattresses and other types of fabrics.

※1 maintain your youth ※2 Deodorizing and antibacterial function

Use of Far-infrared fiber or “KODENSHI®”

※KODENSHI is a registered trademark or trademark of Fibrest Co., Ltd.

What is KODENSHI®?

A mixture of pure far-infrared ceramics and even more special fine ceramics.

Absorb body heat and radiate far-infrared rays to retain heat.

In addition, unlike other infrared radiation using heat energy, KODENSHI® is an attractive material that can safely retain heat without using any heat source other than body heat.

Features of KODENSHI®

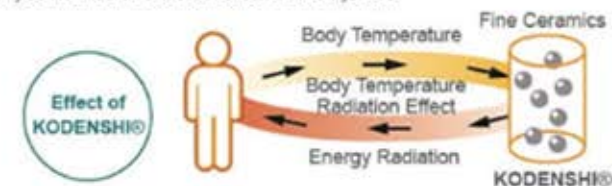

●Retain body heat

Radiate higher far-infrared rays than those emitted from body to expect a strong heat-retaining effect.

●Comfortable even when sweating

Suppress the increase in humidity caused by sweating to maintain a comfortable moisture level.

※There may be individual differences in effects and how you feel.

LALA Grant Fantasy

LALA Grant Gracy

Never say,
"No matter what I try, I can't make my body shape
look beautiful",
"My body structure is originally different from the
one of a Hollywood actress",
or "I am too old to rediscover a slender figure."

[Bra]

Plump up your breast by moving armpit fat to bra

Move your extra armpit fat to breast for attractive breast shape.

Move your fat flowing to armpit back to bust cup for plump and voluminous breast.

Lapis®

High-side design covers your armpit fat to make your back look streamlined and beautiful.

Side film bones and patch cloths make your side lines look slim.

BiBi Grant

BiBi Grant

Support your body movement

Next-generation underwear made with carefully selected materials and sophisticated technology

KODENSHI®

Efficiently radiating far-infrared rays in the range of body temperature

KODENSHI® fiber utilizes your body heat and radiates far-infrared rays. Heat-retaining effect of far-infrared radiation supports your body temperature rhythm to adapt to the environment without cooling your body. It is a high-functional material to control temperature and humidity inside the clothing, prevent stuffiness and make you comfortable at all times.

AP Fiber

Comfortable to wear and reduces stress

AP Fiber embedded with tourmaline generates negative ions in a static state. Negative ions revive the ability of original air or space to absorb inappropriate odors in our living environment, and create a state of relaxation※. They also own heat-retaining effect.

※ Deodorization Effect

TECHNOFINE

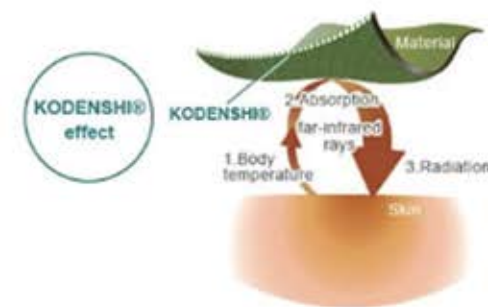

Fibers used in 'BiBi Grant®' series

Your skin can stay dry even when sweating a lot!

High-tech material with high sweat absorption

TECHNOFINE® has excellent sweat absorption and outstanding quick-drying property properties to keep dry and comfortable feeling without unpleasant stickiness or dampness.

※ TECHNOFINE® is a registered trademark of Asahi KASEI Corporation.
Approval No. V59C611

[KODENSHI Beauty Mask]

Originally designed KODENSHI beauty mask

Masks are also a new way of wearing makeup
 to look beautiful even in masks.

Soft to the skin and gently wrap around your face.

[How to Use]

With brand tag on Mask facing up, cover your nose, mouth, and chin. Place the string over the ears. Make sure there are no gaps and adjust the string. No nose wire included.

Set of 4 colors

Surface fabric

Smooth material with CLEANSE.

(CLEANSE is an antibacterial and antiviral textile technology. Antibacterial and antiviral processing is not intended to treat or prevent disease, or inhibit virus action. Evaluation of antibacterial and antiviral properties is based on Kurabo's own evaluation.)

Back fabric

KODENSHI modal bare jersey material with antibacterial and deodorant treatment. (Modal is a recycled fiber made from wood pulp.) Excellent moisture absorbency, smooth to the touch and comfortable to wear. Beige color makes makeup transfer less noticeable. ※Both sides are black color only for Black mask.

KODENSHI®

Antibacterial / Antimicrobial / Deodorant

※Masks do not completely prevent infection or virus invasion.

[Teramee Cream]

Relax with the action of fragrance and spend a peaceful time

This concept was born from the voice of "I want something that I can experience Teramee easily. This body cream provides care with the triple action of Hormee + Terahertz + fragrance. Take a small amount of cream in your hand and apply it lightly to the area of concern. Before going to bed, apply it around the ears to relax with the scent of "moon under the moon".

Fragrance of the moon in the eighth lunar month
Imagined relaxation, calmness, and peacefulness as we prepare for the full moon.
Grane E-one's original scent is a blend of lavender oil, tea tree leaf oil, and ylang-ylang flower oil.

[539] Teramee Cream
¥11,000 (incl. tax¥12,100)

•200g

DR LALA Grant

[DR LALA Grant]

Definitive anti-aging cosmetic series

Protect your skin from aging with 4 simple steps:

Wash, Moisturize, Replenish, and Preserve.

Grant E One's original formulation to keep your skin healthy.

Skin Lotion

Always fresh in individual packs

Contain low-molecular-weight acetylglucosamine found in your skin decreasing with age. Keep your skin hydrated and make it clearer. Apply to your entire face after cleansing as if pressing into your skin.

※No preservatives

Basic : 1 pack per application
Special : 2 packs per application

Serum

Oil-free beauty serum

Contain chitosan to improve your skin texture, moisturize, and protect against external stimuli. Use as makeup base. Spread over your entire face after lotion.

Basic : 1 bottle for 1 week to 10 days
Special : 1 bottle for 3 to 5 days

Gel

Skin-stretching beauty gel

No synthetic surfactants, emulsifiers, synthetic polymers and rubber materials used. Special three-layer gel shapes your skin. Apply after serum and blend into your skin.

Basic : Use as point layering or night pack
Special : Mix gel and beauty serum together and apply

Face Wash

Smooth and refreshing wash

Cleansing paste made with state-of-the-art technology. Gently remove natural makeup and prevent rough skin.

Foaming face wash :
Apply foam to wet or dry skin, blend with dirt, and rinse off.
Use as makeup remover :
Apply foam to wet hands and spread on dry skin, then add a small amount of water to blend with the dirt and rinse off.
※Use a tennis ball size of foam for the second wash.

[721] Skin Lotion
¥15,000 (incl. tax ¥16,500)
● 1.2ml × 30 pcs

[722] Serum
¥12,000 (incl. tax ¥13,200)

Puravia

[Grant Electrolyzed Hydrogen Water Puravia]

Specially-Controlled Medical Device for Home Use

[Grant Electrolyzed Hydrogen Water Puravia]

Meet the water to change your lifestyle

Tasty water for healthy lifestyle. We drink water everyday, so why not be particular about "water quality"?
Electrolyzed Hydrogen Water offers delicious water and health benefits.

Deliver "Safety" and "Trust" to you with enhanced functions

One-way type for easy installation around faucets

When attaching Branch Tap to faucet and connecting with water inlet hose, you can get electrolytic hydrogen water from water outlet on the device.

Easy to clean! Double auto-change and cross-line system

Electrodes and water channels are periodically switched to prevent mineral adhesion to electrodes for stable electrolysis.

Stable generation of electrolytic hydrogen water by Switching Regulator

Tap water quality varies greatly depending on the region and season. Switching regulator control system can generate the same electrolytic hydrogen water in any region or season.

■Thickness 63mm

Slim and compact design suitable even for small kitchen.

■Touch control panel

Use touch controls to set up water purifying mode, concentration level, and music/buzzer/touch sounds.

■Fairly economical

Monthly electricity bill is approx. 31JPY*.

*Calculated at the maximum level used for 4 mins/day at an electricity rate of 27 JPY/kwh.

■On-board voice guidance system

When purification cartridge runs out, you'll be notified by voice message, buzzer sound and purifier light.
